Christine Carberry ‘82
A medical pioneer who has taken a non-traditional path, Christine Carberry, who graduated in 1982, began building her impressive resume in labs at UNH. Today, she has made significant contributions to research in autoimmune diseases, neurodegeneration, oncology, and fibrosis. A certified strategic alliance professional (CSAP), Carberry lectures at the University, offering seminars on enhancing skills with the use of negotiation simulations through planning and preparation.

Carberry has made contributions to her University as well. She established the Christine St. Martin Carberry ‘82 Endowed Fund for Biological Sciences in 2005 and serves on the COLSA Advisory Board and as a volunteer in the Career Mentor Network helping a new generation of STEM students. Carberry also advocates for continued education and leadership in her role on the college advisory board at Great Bay Community College. She has delivered guest lectures at other institutions, including Middlesex Community College, Great Bay Community College, and Smith College.

Carberry combines her passions for philanthropy and physical activity in efforts to raise funds and awareness for numerous organizations, including The Susan G. Komen Fund, Making Strides Against Breast Cancer, Run for the Fallen, and The Science Club for Girls. She also serves on the board of trustees for the Greater New England Chapter of the National Multiple Sclerosis Society.
